for **Hot n' Fresh n' Filtered water**

Better Water Equals Better Coffee, Tea and more

Alwaysfreshh2o Beverage System UCBS-KIT

More than 75 years of experience designing and manufacturing professional coffee brewing equipment is built into this system.

Space Saving Built and plumbed in Design - frees up valuable counter space

Unique Brewing System - assures coffee is brewed at optimum temperature of 192 to 195 degrees F to release full flavor of the coffee.

Instant Source of Hot Water - for tea, hot beverages, cooking and other needs.

Plumbed into Water Filtration System - see diagram below for details.

High Flow Drinking Water System included - HFC 1000 high flow 1.5 gpm system

Easy to Use - simply set the carafe (included) in place then select and push the touch pad for the preprogrammed volume desired

Brew directly into Thermal Carafe - coffee or water stays hot and fresh for hours without using a hot plate or warmer.

Programmable Pre set Brew times - have fresh hot coffee or water waiting for you in the morning or anytime you desire.

Convenient - once the brew is complete, your carafe can be taken anywhere you want to enjoy fresh, filtered hot coffee or water.
